

ABOUT THE UNIVERSITY

Shoolini University is nestled among the pines in Himachal Pradesh. Its lush green campus is located at Baji, 14 km from Solan. It is India's first Biotech University and combines three futuristic academic fields - science, technology and management sciences. A research driven model has been adopted to achieve excellence in various field of Basic Sciences, Bio-Technology, Engineering, Pharmaceuticals and Management Sciences.

ABOUT THE SEMINAR

The environment is understood to comprise the natural and the man-made, and their interactions; including such matters as pollution, health effects, analytical methods, political approaches, social impacts etc. Environmental issues related to a sustainable future are often complex. Multidisciplinary holistic teaching and learning approaches are therefore appropriate for meeting the aims of environmental education. It contribute to the knowledge, awareness, attitudes, values and skills that will enable individuals and the community to contribute towards maintaining and improving the quality of the environment.

TOPICS OF THE SEMINAR

- Environmental impact assessments
- Biofiltration
- Impacts on human health
- Nanotechnology
- Wastewater treatment technologies
